

PLANET SUPRA WP

PLANET SUPRA WP works on any elastic waterproof layer.

This product can be applied on materials that cannot be applied with PLANET SUPRA

- ① High-weather reactive curing acrylic silicon resin, which forms strong and highly durable coating film, protects waterproof materials/layers for a long period of time.
- ② The synergistic effect of pigment and ceramic beads that possess high reflective performance in the near-infrared area works to suppress temperature rise.
- ③ Can be used safely for large-scale construction due to reduced elusive chemical component in coating film.
- ④ A safe product without any environmental hormone or formaldehyde.
- ⑤ Applicable to rubber sheet; primer is unnecessary.
- ⑥ Prevent yellowing of the asphalt by its high bleeding resistance.
- ⑦ Applicable to waterproof materials other than the above, by using specialized primer.
